

## **CACSAIC Outreach Committee**

Notes from Nov 14, 2011, Skype Meeting

1. Welcome and Introductions - the main goal would be to identify any province that is missing
2. Meeting times – will Monday's at 4:30pm work for everyone
3. Committee mandate for 2011/12 – focus on teachers, policy makers and parents
4. Our website and CS Education Week activities – we need someone to act as the moderator who will receive information for the website and then pass it along to Coral Lee Burns <[burnsc@ucalgary.ca](mailto:burnsc@ucalgary.ca)> for update – so need to find a responsible person to volunteer for this
5. Barriers to CS Education in Schools – review and add to list
6. Status of CSTA-like group in every province – explain what is the CSTA, then take status of where each province is, if they don't know then that is their homework for our next meeting
7. CS scholarships – we need to create a proposal to push through CACSAIC for federal scholarships in the ICT/CS area, particularly for women and minorities
8. Next Meeting – first of December ??
